House OK Dubious On Tax Boost

Only Minor Changes Made in Bill Previously Rejected

WASHINGTON, Oct. 19—(AP)—Grim with tension, President Truman's leaders scrambled feverishly today for enough House votes to put across a $5,691,000,000 general tax increase.

They acknowledged freely they were in for a hard fight. The bill coming up for a roll call today was changed in only a few minor particulars from the first compromise tax bill which the House rejected 204 to 157 three days ago.

Telegrams went out to absent members believed to be favorable to the bill, urging them to be present and vote. The 65 Democrats who voted against the first compromise were implored to change their stand for the sake of party solidarity. Buttonhole overtures were made to the 139 Republicans who voted "no" Tuesday.

Rep. Joe Martin of Massachusetts, the Republican leader, told reporters he believed most Republicans who voted against the original bill would hold fast against the slightly revised new version. But Percy Priest of Tennessee, the Democratic whip, figured he could put together a winning combination by the addition of Democratic and Republican converts plus returned absentees.

Months ago—back on June 22—the House passed 233 to 160 a much bigger tax bill, one to raise an estimated $7,200,000,000. The Senate trimmed that down and the compromises resulted.

Cut $41 Million

The revamped bill came out of a reconvened conference committee shortly after noon yesterday, reduced in size some $41,000,000 from the first compromise. A few hours later the Senate passed it by a voice vote, after a brief explanation of the provisions by Senator George (D-Ga). The Senate didn't get a chance to pass on the first compromise which the House rejected.

The House was called into session at 11 a.m. (EST) today, an hour earlier than usual, to consider the measure. The rules limit debate on a conference report to one hour, but before the final vote there was a good chance a motion would be made to send the bill back to conference once more.

In round figures, it calls for a $2,400,000,000 a year increase in individual income taxes, a $2,100,000,000 boost in corporation taxes, and a $1,200,000,000 jump in excise taxes on such things as liquor, cigarets, gasoline, automobile and household electrical gadgets.

None of the half dozen changes made yesterday was very consequential from the standpoint of revenue. The income tax boost was shaded down a trifle by providing an increase of only 11 percent instead of 11½ percent on the first $2,000 of taxable income. Boosts in the other brackets average around 11¾ percent, except for persons in the higher brackets, who have an option of paying an increase amounting to 9 percent of what they have left over after paying their tax at the current rate.

$39,697 Reported at 1st Meeting

Chest Donations Reach 40 Percent Of $97,764 Goal

Volunteer workers in the Marion County Red Feather Community Chest Campaign reported cash and pledges totalling $39,697.70, at their first report meeting today at the Y.M.C.A.

The campaign got under way Tuesday when workers launched a drive to raise $97,764 to carry on the work of agencies in the Marion Community Foundation for 1952. The subscriptions represent a little more than 40 percent of the goal.

The workers reported at a "Dutch treat" luncheon today at the Y.M.C.A. The next report meeting will be at noon Tuesday at the Y.

The following reports were given:

Manufacturers Council, Harold Grigsby reporting $10,810, Industry (other), Rex Robinson, $5,171; Individual special gifts, Hoover Brown, $5,789.80; Professional, William Charle, $1,944.15; Downtown, Jackson Taft, $7,560.75; Public Employes, Walter Guthrie, $443; County, Miss Mary K. Stone, $61; Residential, Mrs. John Waddell, $1,349.13, Industrial Employes, John F. Lacey, $1,614; Public Schools, James E. Frew, $901.49, Clubs and organizations, Mrs. B. H. Buettin, $334, National Stores, Charles Osterholt, $3,369-38; Suburban business, Lewis Ashworth, $350, Total $39,697.70.

Subscribers to the Marion County Red Feather Community Chest Campaign may earmark their contribution for a special agency of the Community Foundation, if they so wish, J. B. Bray, campaign chairman, announced today.

While this has always been the privilege of subscribers, workers this year, as in former years, are meeting with the question, "May I mark my contribution for a special agency?"

Mr. Bray's answer is "absolutely yes" All contributions so marked will be placed in the fund allocated by the subscriber he states. This is a perfectly legitimate request and the Chest will be more than pleased to comply, he adds.

Find Trouble In Electrical Test Circuit

Hope To Fix It By Tomorrow, AEC Spokesman Reports

LAS VEGAS, Nev. Oct. 19—(AP)—The opening blast of the Atomic Energy Commission's exercise Desert Rock was postponed this morning because of a mechanical failure.

The AEC issued this statement in connection with the postponement of the blast, which was originally scheduled for any time after 5 a.m. Pacific Standard Time:

"A nuclear detonation scheduled for this morning was postponed because of mechanical fault in a key electrical test circuit between the control point and the tower."

It was the first official confirmation that the A-weapon was being detonated from a tower. Estimates on the height of the steel tower range upwards of 75 feet. But an AEC spokesman declined to comment.

"Weather permitting, we have every confidence that the mechanical fault can be fixed in time to hold the test tomorrow," the spokesman said.

However, the official word on resumption of the test will not be available until at least 1 a.m. Pacific Standard Time tomorrow morning, at which time it is AEC practice to notify the Civil Aeronautics Administration to close off the surrounding area to all planes.

Had Issued Notice

The AEC issued a notice at 12:56 a. m. to the Civil Aeronautics Administration to warn all pilots not to fly within a 200-mile radius of Las Vegas.

The notice said only that a test would be made on the range 75 airline miles northwest of Las Vegas, "sometime after 5 o'clock this morning."

Other details of the start of exercise Desert Rock, the first atomic test to utilize Army troops had been cloaked in secrecy.

The AEC did not indicate whether troops were to be used in the first test.

The little town of Indian Springs, about 35 miles from Yucca Flat, without receiving official notification, had prepared to ride out the blast. Windows were opened and pictures and bric-a-brac taken down in an attempt to keep damage to a minimum.

Indian Springs received the brunt of the $15,000 damages caused by last winter's five blasts. Those explosions, however, were set off at Frenchman Flat, at least 15 miles closer to the town.

Las Vegas Unconcerned

Las Vegas itself did not take such precautions this time. The AEC in fact, did not feel it necessary to issue any warning to Las Vegas residents, such as the admonitions of last Jan. 27 to Feb. 6 to stay away from windows.

This led to speculation that the first detonation in the new series might not be as big as some of the previous blasts.

Exercise Desert Rock, besides its history making initial use of a-weapons in tactical support of ground forces, also was designed to test heat and radiation effects on animals and buildings.

The AEC disclosed that nearly 150 animals including two dozen sheep, a like number of dogs, and 100 rats, have been brought from commission laboratories and placed on the Yucca Flat site.

The AEC said it hoped to get data which might be helpful in treating human casualties in event of enemy atomic action.

The tests on various types of construction also are expected to be helpful to civilian defense officials throughout the nation.

Agree on Draft Of Water Co. Franchise

Councilmen Ready To Negotiate With Company

Marion City Council is one step nearer settlement of the water franchise question after a special meeting with the utility committee of council last night.

Councilmen tentatively approved a rough draft of a franchise to be used when formal franchise negotiations begin. Councilmen Louis Conkle said his committee would notify Henry A. Mickley, attorney for the water company, that council was ready to begin negotiations with company officials.

He said he was unable to say how long it would take for the negotiations to be started. That depends on the availability of officials for the conferences, he said.

Official action on granting or refusing a new franchise is not expected for several weeks. Last night's meeting at the mayor's office was not for formal approval of the franchise but to acquaint council as a whole with the points recommended by the utilities committee for inclusion in a new franchise.

No Big Changes

Mr. Conkle said no substantial changes were recommended in the franchise. The old one expired last April. Some minor changes have been made to clarify and improve some points from the city's standpoint, he said.

Discussions and work on a new franchise for the Marion Water Company have been going on since last fall. Council has wanted to talk rates at the same time but company officials have insisted on being granted a franchise first. Mr. Conkle said today, "We still feel that the subject of franchise should be negotiated at the same time as the subject of rates." The two questions would have to be settled under separate ordinances but council wants to discuss and settle the two at the same time.

No Discussion on Rates

At last night's meeting no discussion was held on the question of rates. Mr. Conkle said council members have agreed on the form of a franchise if one were granted. The next step in the program will be a meeting of council with officials of the company.

Council members insisted on rate talks when the new franchise began last fall because the company had been granted a 35 percent increase the previous year. At that time, the company had asked council for permission to boost rates 25 percent. Council refused the request and the company carried its request to the Public Utilities Commission of Ohio. It added 10 percent to its original request as cost of preparing its case. The PUCO granted the entire 35 percent increase.

West Towne Jubilee Plans Progressing

(Picture on Page 12)

Plans are nearly completed for the West Towne Merchants' Jubilee Monday and Tuesday. The event is being sponsored by the newly-formed West Towne Merchants' Association.

The association is headed by Art Moore of the L-K Sandwich Shop, president; Wilbur Shover of Shover's Radio and Television Service, vice president; and Mrs. Evelyn Dane of the Marion Cycle Store, secretary-treasurer.

The group has been meeting regularly for several weeks and was formed to promote programs for the development of the business area between Garden street and Park boulevard on West Center street.

Their first big project is the two-day jubilee. This event will be highlighted by programs Monday and Tuesday night. Monday from 6 to 9 p.m. a talent show and an outdoor square dance has been scheduled. The talent show is open to amateur performers within a 20-mile shopping radius of Marion.

Tuesday night's show will be climaxed with a vaudeville show complete with chorus line. The show and a dance will be held from 8 to 11 p.m. There will be no admission charge at either show.

FIVE-DAY FORECAST

Temperatures will average two to four degrees below normal. Normal maximum 61 in the north and 65 in the south, normal minimum 42. Cooler tonight and Saturday, continued cool Sunday, warmer Monday and Tuesday and cooler Wednesday. Light showers Tuesday with total less than one-quarter inch.

Harding Band Jolted When Auto Runs Into School Bus

A school bus carrying about 30 Harding High School band members and cheerleaders, enroute to Marion from the football game in Findlay, was struck early today by a car on Route 23 near the south edge of Upper Sandusky.

All the students escaped serious injury, although three were badly shaken up. Bonnie Schneck, a cheerleader, was taken to Marion City Hospital for examination last night and was released to her home, where she is under a physician's care today. She is the daughter of Mr. and Mrs. Paul Schneck of 334 Columbia court.

Hit Broadside

The bus was hit broadside on the left by a northbound car which failed to negotiate a sharp curve near the Upper Sandusky's southern city limits. The car missed the curve, went off the road into a gravel parking space in front of a business place, and then swung back into the highway, striking the school bus near the driver's seat. The accident occurred at 12:45 a.m.

The bus, a 1951 Ford in use for less than a month, was pushed sideways about five feet and struck a telephone pole, damaging the right front fender and wheel.

The car, also a 1951 Ford, slid sideways in the highway for several feet and stopped near the rear of the bus. The driver, Donald Cole, 23, a paratrooper on leave from Fort Bragg in Fayetteville, N. C., and his wife, Irma, were thrown from the car which was demolished.

In Wyandot Hospital

Both were reported in "fair" condition today in Wyandot Memorial Hospital, where they are undergoing examination. Cole suffered a possible broken arm, while Mrs. Cole suffered possible chest injuries.

Ernestine Robinson, a passenger in the car, was treated at the hospital for bruises of the left thigh and was released. Another passenger was uninjured.

Cole was arrested by Upper Sandusky police on a charge of

Reveal Tax Collectors Living High

WASHINGTON, Oct. 19—(AP)—To allegations of corruption and collusion among the nation's tax gatherers has been added some colorful information on lush vacations, big race track winnings and multiple bank accounts.

This data was part of the testimony heard yesterday by a House ways and means subcommittee investigating the operations of the Bureau of Internal Revenue.

Reaction to the testimony—given by four of the bureau's New York agents—was swift.

One internal revenue agent, Mordecai Miller, who claimed inability to remember exactly how many bank accounts he had, was summarily suspended by internal revenue commissioner John B. Dunlap.

Another agent—whose financial worth, by his own estimate, rose from $2,400 to $25,600 between 1946 and 1951 on a $5,000-$6,000 annual salary—was instructed to come back before the committee next Tuesday and try again to explain.

A third, to the open-mouthed reaction of lawmakers, volunteered the information he did not report some $2,000 of race track winnings in his own income tax return for 1946-49 because he was afraid it would "jeopardize my pension."

Lucky at Track

The same agent explained a $3,000 discrepancy in his salary and his financial outgo for 1950 by a $3,400 winning wager in the daily double at Belmont Park race track. He hit it again this year for $3,216, he testified with considerable satisfaction.

Rep. Kean (R-N.J.) wanted to know more about the daily double winnings of agent Ralph P. DeMayo, a gray-haired veteran of 32 years in the Internal Revenue Bureau.

DeMayo said "Royal Bones" and "Blue Man" won him $3,216 at Belmont this year. He produced a photographed copy of a check from Belmont to prove it.

But he couldn't remember the names of the horses who teamed up to hit the $3,400 jackpot for him last year.

DeMayo said he acquired a $600 television set and a $3,000 automobile in 1950, won about $2,000 at the tracks between 1946 and 1949 and kept his $3,400 winnings in $50 bills kicking around in a drawer at home rather than banking it because, as he stated, "my wife would have found out about it."

It was DeMayo who said he didn't report his winnings before 1950 "because I wanted to complete my 30 years in the service to get my pension."

MacArthur Fires Back At Truman

NEW YORK, Oct. 19—(AP)—Gen. Douglas MacArthur challenged President Truman last night to declare that Red China will never be allowed to take over Formosa or a United Nations seat.

The general's statement was in rebuttal to the President's answer to a speech made by MacArthur Wednesday, charging that some American leaders had had a "secret plan" to admit Red China to the U. N. and give her Formosa.

The President said yesterday that MacArthur's remarks were not based on fact, and that the general knew they were not.

In reply, MacArthur said here that "President Truman habitually uses the technique of personal invective in rebutting criticism."

He added that the President "would relieve many millions of patriotic minds deeply concerned with our national security if, instead of indulging in innuendo and trying to alibi the past, he would announce the firm determination that under no conditions even though fostered by the United Nations, would the United States permit Formosa to fall into Red hands or Communist China to be seated in the United Nations. That simple and understandable assurance he has never given. I predict that he never will."

The speech which the President said was knowingly not based on fact was delivered by MacArthur at the American Legion convention in Miami. The general said the alleged "secret plan" had been "wrecked."

PLEADS GUILTY

NEW YORK, Oct. 19—(AP)—Waxey Gordon, 64, prohibition era beer baron, pleaded guilty today to an indictment charging illegal sale of narcotics.

Legionnaires Hear U. S. Civil Defense Chief

MIAMI, Fla., Oct. 19—(AP)—Disagreeing with General Douglas MacArthur, U. S. Civil Defense Chief Millard Caldwell says "the next war will come to Main street."

In an address at a closing session of the American Legion's 33rd convention yesterday, Caldwell added: "now that the people are being told the hard truth we are being charged with crying wolf."

Some regarded the speech as being an answer to General MacArthur, who Wednesday told the Legionnaires he was not one of those "who hysterically talk of American cities being laid waste" in another war.

Caldwell asserted that there are some too old to realize the concept of war has changed. When a reporter asked if he was referring to the 71-year-old deposed general, Caldwell replied: "If MacArthur is in that group, he'll just have to stay in it."

Earlier the convention adopted overwhelmingly, after a stiff floor fight, a resolution calling for a complete sweep-out of the top men in the State Department.

"To obtain the leadership required," said the resolution, "we demand the immediate removal of the present corps of leaders whose very action has reflected incompetency, indecision and defeatism."

Such action, it said, is a "must" to restore the confidence of Americans "in the conduct of our foreign affairs."

Donald R. Wilson of Clarksburg, W. Va., was elected the new Legion commander. In his inaugural address, he called for "aggressive Americanism, international realism and no compromise with communism."

By "international realism" he said he meant "a practical, hard-headed, down-to-earth policy which avoids the ivory-towered, philosophical double talk of diplomacy, calls a spade a spade, and ceases to consider American lives an expendable commodity."

6,000 OUT AT AUTO-LITE

TOLEDO, O., Oct. 19—(AP)—Six thousand C.I.O. unionists struck five Electric Auto-Lite Co. plants here today over wage grievances affecting 270 employes. Picket lines were set up at all five plants. No violence was reported.

Truce Teams Clear Biggest Block To Talks

MUNSAN, Korea, Oct. 19—(AP)—Liaison officers agreed today on the size of neutral zones around Kaesong and Munsan, thus clearing the biggest hurdle in the path to reopening Korean truce talks.

Only two other points remained in dispute.

The feeling at this U. N. advance headquarters was that armistice negotiations might be resumed in a few days, ending a two months breakdown.

Brig. Gen. William P. Nuckols, U. N. command spokesman, caution:

"Any point, however small, remains a point of contention that will block resumption of armistice talks."

However, he was "cautiously optimistic," and said the "most important" point was cleared up today.

The Reds accepted a U. N. compromise proposal for security zones with a three mile radius around headquarters of the opposing truce teams in Kaesong and Munsan. The Communists had wanted five mile zones, such as surrounded Kaesong when it was the site of negotiations.

Fresh Troops Plug Holes In Red Defenses

U. S. 8TH ARMY HEADQUARTERS, Korea, Oct. 19—(AP)—Tank-led Allied infantrymen smashed into fresh Chinese replacements today on the approaches to Kumsong, deserted Red base in central Korea.

The attack along an eight mile front hacked out limited gains Friday morning, carrying United Nations troops to within two and a half miles of the road city.

Britain's Hold On Suez Canal Area Tightened

CAIRO, EGYPT, Oct. 19—(AP)—Backed by growing sea, land and air forces, Britain tightened her hold on the strife-ridden Suez Canal area today and moved against Egyptian officials in the vast Sudan area south of Egypt.

As British naval guns trained on the Suez, authoritative sources here said the Sudan's British governor general, Sir Robert G. Howe, had ordered two top Egyptian officials not to return to their posts there for the time being "on grounds of public order."

Local newspapers said the Egyptian government had ordered the officials back to Khartoum.

Britain and Egypt control the Sudan jointly under an 1899 agreement which the Egyptian parliament tore up Monday night at the same time it canceled the treaty permitting limited British garrisons along the Suez. The British said they would recognize neither one-sided action.

The officials reportedly barred from the Sudan were Brig. Gen. Abdel Fattah Bisheri, chief Egyptian staff officer there, and Mohammed Abdul Hadi, controller general of education. They were reported in Cairo.

American Wins Nobel Prize In Medicine

STOCKHOLM, SWEDEN, Oct. 19—(AP)—The 1951 Nobel Prize in medicine was awarded yesterday to Dr. Max Theiler of New York for developing the first effective vaccines against yellow fever.

The award recognized the contribution of Dr. Theiler—who has been on the staff of the international health division of the Rockefeller Foundation for 21 years—as the most important achievement in 50 years in the fight against one of the great plagues of the world.

The 51-year-old medical scientist has spent half of his time in the past two decades attempting to find the effective weapon against yellow fever, scourge of the tropics and subtropics.

DR. MAX THEILER

It was learned from reliable sources that he had been declared worthy of the Nobel Prize by experts of the awarding body at least three times in recent years.

Veterans and Draftees Guide — By Major Thomas M. Nial

From J. G. of La Crosse, Wis: "I am now receiving $60 a month pension for total and permanent disability from a non-service-connected disability. Will I receive the additional $60 a month authorized by Congress over the President's veto last month?"

This additional $60 is for aid and attendance for those who require it. If you feel that you are eligible I suggest you contact the VA and make application. Each case is decided individually.

• • •

From E. S. of Johnstown, Pa: "I bought a house with a G I. loan in 1949, using the full $4,000 guarantee. Can I now buy a business with the additional entitlement authorized under the new act?"

The 1951 Housing Act authorizes additional entitlement only to buy or build a home. Since you used the full $4,000 guarantee, you have nothing left to buy a business under a G I. loan.

• • •

From D. G. of Birmingham, Ala: "I was turned down for a G.I. loan on a particular house because the bank felt my income was not sufficient to carry the monthly payments. Can the VA make the bank lend me the money?"

Neither the VA nor the veteran can influence or compel any lender to make a loan. It is up to the bank or other lender to decide whether it feels the vet is a good risk, even with the guarantee.

• • •

From W. B. of South Bend, Ind: "I have never had a G. I. loan. Can I get one to refinance my home so that I will get the lower interest rate?"

No, unless you are in bad financial shape, such as in immediate danger of losing your home by foreclosure. Each case is decided individually. Talk it over with the nearest VA office.

• • •

From Mrs. W. L. of New York City: "My husband was recalled to active duty from the inactive reserves in September, 1950. When will he be released?"

I am sorry but you did not say which branch of service he is in, so I can't tell you. The release program varies for each branch.

• • •

From A. M. of New Orleans, La: "My son was sent to Germany this spring and the extension of his enlistment will be up next March. Will he have to stay there for the full 36 months?"

No. He will be sent back to the States in time to be discharged at the end of the extension of his enlistment.

Inquiry Class Opening Set For Monday

St. Mary Assistant Pastors To Conduct Moira Hall Sessions

The Inquiry Class, held each year in Moira Hall, will open Monday night at 8 o'clock. As in former years, classes will meet each Monday night at the same time, and will be open to the public. Conducting this year's class will be Rev. Father Urban Wiggins and Rev. Father Thomas Lowery, assistant pastors of St. Mary Catholic Church.

In announcing the class, Rev. Wiggins explained it is conducted each year to give the public an accurate and authoritative evplanation of religion, its history, doctrine and practices so essential to the lives of all men.

The subject matter, he states, is designed to impress upon citizens the vital importance of a true knowledge and understanding of God, religion and morality. It serves, he points out, to make society more keenly aware of the world-wide counter movements organized by those who are hostile to the true Christian concepts of justice, charity and human dignity.

The Inquiry class has as its purpose also, to refresh the minds of men with their responsibility toward God as a moving force in their lives, the priest explains. It will indicate in a detailed manner, how this responsibility is to be fulfilled by definite duties to their Creator, God-given rights to be respected and God-given commands to be obeyed.

"The plan of the Inquiry Class series," Rev. Wiggins points out, "is to demonstrate to all men that the practice of religion consists in knowing, loving and serving God as God Himself wishes to be known, loved and served, and not as men themselves choose to do so."

The classes will be conducted in dialogue form by the two priests. A question box will be available for those who wish further information on the subject of the evening's discussion.

Your Good Health

Fever Cause Sometimes Hard To Discover

Fever usually points to infection somewhere within the body.

As a rule, it is not difficult to find the reason for an elevation of temperature, but the trail is sometimes confused where this symptom takes the form of repeated attacks of low-grade fever. In some cases, the patient eventually recovers, even though the cause is never discovered.

To diagnose a case of this kind, the physician must take into account not only any other signs of illness that may be present, but also the age of the patient, his occupation, and his habits.

Many people, for instance, who travel to South America and Mexico pick up malaria infections or amebic dysentery which cause fever. Recently, it has been found that a large group of the veterans returning from Korea were suffering from mild attacks of fever, due to delayed malaria infections. Thus, the travels of a patient may be important in determining the cause of the fever.

If a person has been drinking unpasteurized milk, the fever may be due to an undulant fever infection. Eating improperly cooked meat, especially underdone pork, may cause a trichinosis infection with fever.

When mild fever suddenly appears and persists in young girls, it frequently can be traced to an infection of the kidneys or urinary tract, and the urine should be immediately tested. In older people, cancer may be the cause and, in elderly persons, a slight or unrecognized stroke may cause a slight fever for weeks or months, which disappears as time passes.

In younger people, tuberculosis, not only of the lung but of the internal organs, may be the cause of fever. Many nervous individuals show a rise of temperature up to 99.6 degrees in the afternoons and evenings, but this does not mean that there is any genuine disease present.

Usually, loss of weight is a good index as to the presence of disease. If a person does not look or act as though he is sick, and has not lost weight, it may be that a rise in temperature is normal for him.

In all cases of mild fever, a complete physical examination should be made to determine the exact cause.

With the newer methods of better care and with early diagnosis using modern diagnostic methods, in many cases the cause for mild fever is easily discovered and corrected.

Such is the conclusion from tests by doctors in which Lydia E. Pinkham's Vegetable Compound gave *complete* or *striking* relief from such distress in 3 out of 4 of the cases tested!
Yes! Medical evidence shows Lydia Pinkham's thoroughly modern in action. It exerts a remarkably *calming* effect on the uterus — *without the use of pain-deadening drugs!*
The effectiveness of Lydia Pinkham's needs no proof to the millions of women and girls whom it has benefited. But how about you? Do *you* know what it may do for *you?*
Take Lydia Pinkham's through the month. See if you don't get the same relief from the pains and weakness of "those days"! See if you don't feel better *before* and *during* your period!
Get either Lydia Pinkham's Compound, or *new, improved* Tablets, with added iron!
If you're troubled with "hot flashes" and other functional distress of "change of life"—you'll find Lydia Pinkham's wonderful for *that,* too!

Radio and Television

By JOHN CROSBY

Triumph of Publicity Over Art

At the opening of the new "Chesterfield Sound Off Time," conceivably the most awkwardly titled television show around, Bob Hope was discovered, after an opening barrage of jokes, under a dryer at a beauty parlor. Toward the close of it, Mr. Hope was waltzing around a prize ring with Jack Dempsey, who used to behave rather differently in that environment.

John Crosby

In between the beauty parlor opening and the closing waltz, Mr. Hope minced about the stage like an elderly chorus girl, waved a limp hand at Dinah Shore and leaped into Hy Averback's arms. This is entertainment? Never did I think I'd see such an exhibition on a coast-to-coast television network performed by one of the nation's top comics.

What has got into Hope anyway, with all this posturing and strutting and wiggling of hips and waggling of hands? If he's trying to suggest what I think he's trying to suggest, then it isn't funny and it sure doesn't belong in people's homes. Even after a cooling-off period of roughly 24 hours, I feel strongly that Hope's first show was the most appalling demonstration of unabashed vulgarity I've ever seen and, believe me, kid, I've seen plenty. I doubt that the darned thing would have been permitted at Minsky's. The Minskys, I'm sure, would have turned it down, a) because it was in the worst possible taste, b) because the jokes (Bing Crosby's waistline, Bing Crosby's money, Dagmar's bust weren't very funny even when they were new, c) because Hope, who once was a very skilled comedian, is relying almost exclusively on the hip-wiggle as his comedy technique.

* * *

IN ADDITION to the waltz and the hair-dryer, Hope engaged in a kissing and necking contest with Jerry Colonna over Dinah Shore, a nice girl who shouldn't have to put up with this sort of thing. Apart from a magnificently expert rendition of "Hello Young Lovers" by Miss Shore—the one bright spot—that comprised the half hour. I'm optimistic enough to think there must have been a lot of people at NBC and also at the advertising agency who shuddered during the rehearsals of this terrible thing. But no one, I guess, can gainsay Mr. Robert Hope, who has got a little too big to question.

The growth of Mr. Hope from entertainer into a sort of national institution, immune from serious criticism, is a fascinating study in self-promotion, well worth a monograph by scholars of American culture. It started during the war when the comedian first entertained, then almost took sole possession of the armed forces. It was almost unpatriotic not to listen to the Hope radio show which incidentally, was a lot better show then.

* * *

BUT OVER THE YEARS, the Hope radio show became increasingly mechanical and more and more unfunny. It maintained an illusion—and not a very good one—of funniness only because of the racket set up by the studio audience. But this noise has ceased almost entirely to be laughter. Now the jokes are greeted by thunderous applause, a rather odd was to express amusement. The applause is about as spontaneous as a street demonstration in Moscow. It's nurtured and encouraged and all but coerced out of the audience by stooges and by various tricks of timing and inflection which are regrettably as infallible as that little rubber hammer a doctor uses on your knee joints. And all across the nation, millions of people, trained like Pavlov's dogs into slavering at the proper moment, are conned into thinking something pretty special is taking place.

* * *

OR ARE THEY? I don't see how Hope's sleazy anatomical jokes can stand up long in comparison with the bright young comics who are springing up on television. Herb Shriner, for example. After a bout with Mr. Hope, Shriner is a fresh clean breeze from Indiana. His humor has point and meaning; it is the product of acute observation rather than a filing cabinet. Even as a technician of comedy, this young man with his effortless delivery is now recognized by the professionals in his on trade as one of the masters.

Either as a technician or as wit, Hope is no match either for Shriner or Sid Ceasar or Wally Cox, all youngsters who have worked hard at their trade. Still he rates all the hullabaloo, a triumph of publicity over art.

Lionesses Endorse 4-Mill School Levy

Marion Lioness Club voted unanimously to endorse the proposed school levy when the group met Tuesday night at Ringers Inn.

Mrs. Harry Seiter, finance chairman, gave a report of the club's concessions at the Lions' bazaar in September. The club voted to cooperate again this year with the Marion Welfare Department and supply shoes for needy persons.

In bridge, Mrs. Carl Barchfeld received high award, Mrs. Dallas Harruff second and Mrs. John Luginbuhl low. Mrs. Merritt Williams had high score in canasta.

1952 HARLEY-DAVIDSON MOTORCYCLE!

"Going through the gears" is an easy, convenient operation with the new foot shift—hand clutch which permits four forward speeds without removing a hand from the handlebars on the 1952 model Harley-Davidson Big Twin Hydra-Glide motorcycles, according to Glen Dane Jr of Marion Cycle Store

The rider merely 'foots' through the gears, operating the clutch by a hand lever conveniently located on the left handlebar.

To the time-proved features of hydraulic valve lifters, hemispherical combustion chambers, and chrome plated compression piston rings has been added Parco-Lubrizing of exhaust valves on Big Twin motors. See 1952 models now on display.

Not Too Delicate To Mention

IN 1940 and 1941 a subject too delicate to mention in the United States was the circumstantial evidence that Communist conspirators were using their influence inside certain labor unions to close down defense plants through strikes. It is not too delicate to mention in 1951.

The subject was too delicate 10 years ago because the Roosevelt Administration had become so clubby with some of the Communist conspirators that they were sitting in the seats of the mighty giving orders to rabbity politicians afraid of losing labor votes. In 1951 the commies not already in jail are in disguise.

But there was a time in the turbulent history of the new dispensation when anyone who disagreed with Washington, especially if he happened to be an employer of labor, could count on receiving the full treatment. He and his manufacturing enterprise would be manhandled by experts.

In January, 1941, approximately 9,000 Allis-Chalmers workers were pulled off $26,000,000 worth of defense orders by strike leaders charged with being Communists by a Wisconsin legislative committee. More than six years later, Louis F. Budenz testified that Harold Christoffel, one of the leaders, was a Communist. Christoffel was expelled by his union, United Auto Workers, for mishandling funds, after he had been convicted for perjury in testifying that he was not a Communist. In 1949, Budenz testified that Eugene Dennis, one of the 11 top Communists convicted under the Smith act, ran the Allis-Chalmers strike in 1941 through Christoffel.

When the latter's first conviction fell through because the Supreme Court stumbled over a technicality, a fresh indictment was drawn up and there was no stumbling the next time. In February, 1950, Christoffel was convicted and sentenced to from 2 to 6 years for perjury when he testified that he was not a Communist.

All this comes to mind when President Truman mildly suggests that strikes by nearly 16,000 aircraft workers belonging to C.I.O., unions should be stopped before they cripple the defense effort of the United States.

Riots With Provocation

A MORE or less "happy ending" to what might have been a disastrous riot in West Virginia State Penitentiary at Moundsville will direct public attention again to the basic problem of operating these institutions.

It is a problem of reconciling what is made available with what is necessary to keep the morale of the prisoners from being destroyed by sub-standard food, clothing and housing.

The contention of the "hard school" of prison administrators that the men and women in their charge deserve nothing and should be thankful for anything more than nothing always backfires sooner or later in the form of a riot or a scandal. This is not a brutalitarian society.

There is a minimum standard of humanitarianism for prisoners. It is apparent that in the penitentiary at Moundsville this standard had been violated. The warden, himself, admits there was insufficient clothing for prisoners, because of an inadequate appropriation. He further admits there was a legitimate complaint against the food by promising to do something about the prisoners' charge that a cook was "filthy." The public always hears about prison riots, but it does not always hear about the provocation for the riots.

Political Solution

IN A SEPARATE statement added to the report on ethics prepared by a Senate subcommittee under Senator Douglas of Illinois, Senator Aiken of Vermont points to the political solution for a political problem.

The solution is "to throw the rascals out," the oldest and probably the noblest of all the objectives of the U. S. electorate. Senator Aiken thinks the Democratic party has grown hopelessly corrupt by staying too long in power.

There is no solution, therefore, in codes of conduct, no solution in stricter laws to punish wrongdoers. They are too numerous and too well-entrenched to be dug out one by one through the slow processes of moral indignation and legal prosecution.

What is needed in Washington is a political housecleaning with a new broom. If it were the Republican party which had been the majority since the spring of 1933 and if its trusteeship had been similarly neglected, the same remedy would be in order—and Senator Aiken happens to be the kind of Republican who would suggest it for his own party, too.

The Douglas subcommittee study is interesting, and it may be helpful. But the senator from Illinois, himself, must know by this time that it is going to take more than an affirmation of good intentions to offset the cumulative misdeeds of the spoilsmen.

The Empire Fades

By George E. Sokolsky

Moslem World Seen Shaping Up 3rd Great Power

IF THE Moslems succeed in forcing Great Britain out of the Middle East, little of importance will be left to the Empire but the self-governing dominions. To Disraeli, India was the righest jewel in Victoria's crown—and when India was lost, the Empire moved on its march of death.

From Elizabeth to Victoria, the British builded an amazing world out of sea power. They pushed Spain and Holland aside, defeated France and combining military zeal with commercial skill brought the continents together by ships and goods and the movement of men and money.

SOKOLSKY

Truthfully, it could be said that the sun never set on the union jack or for that matter on British trade.

It was England's German king, George III, and his stupid ministers who lost the 13 American colonies. Such British statesmen as Burke and Pitt understood the error in their day and fought hard against the king's and Lord North's lack of statesmanship. The United States of America came into being, but the northern colonies,-Nova Scotia, Newfoundland, and other areas taken from France eventually became Canada and remained loyal.

* * *

BRITISH POLICY in Europe and Asia had ever been to permit no power to overwhelm either continent. In the balance of power, Great Britain played the middleman's role and profitably survived most wars.

However, the balance of power could not maintain the peace of Europe as long as the pressures of nationalism burst forth like geysers. British policy has generally been to discourage nationalism such as Joan of Arc or the French revolution or the Germany of Bismarck produced. Even the Italy of Mazzini frightened the British, as did, in time, the Italy of Mussolini. If only the world would stay put, the British could always open the avenues of commerce.

But the world would not stay put and always so-called weak and backward nations pressed their claims upon the strong and decaying powers, the Crimean war saved Turkey from an emerging Russia but it did not save Turkey from its own decay, just as all the agreements and treaties defining colonial sphere of influence in Asia and Africa staved off war in the first decade of the 20th century but not in the second decade, nor in the third and fourth.

* * *

IT IS MOSLEM nationalism which now faces Britain in Egypt, Ian, Iraq, and, it is to be assumed, everywhere in Asia as far as Pakistan. It is not only that the Moslems feel the growing pains of resurrected nationalism, but as a practical matter, it no longer pays to be tied in with British policy or British trade. This is the price that Great Britain is having to pay for two wars out of which she came politically victorious and economically damaged.

Since World War I, what remained of the Turkish Empire in the Middle East was carved up among the great Moslem families into Iraq, Saudi Arabia, Jordan. Persia was changed into Iran; Palestine became Israel; Syria and Lebanon became sovereign; forgotten Yemen emerged. And oil made the Moslems rich—richer than they had been in all their history since Mohammed went on the Hegira from Mecca to Medina.

Egypt is the heart of the Moslem world. It is historically the oldest existent nation in the human story. It is rich because of the Nile and the Suez Canal. It is rich because the British rescued it from the Osmanli—from the Turkish Empire.

* * *

BUT NATIONS HAVE no gratitude, as Americans have learned in two wars. The Egyptians seek to become wholly independent, wholly sovereign with no strings attached.

The stakes are enormous, not only for Egypt, but also for Soviet Russia. The dangers are now greatest for the United States that has assumed the responsibility of maintaining the status quo of 1945, which means that the nationalistic impulses of such countries as Egypt, Iran, Iraq, India, Pakistan or any other nation are to be restrained in the interest of Great Britain.

But the Moslem world does not want to be restrained. It is on the march from Pakistan to North Africa. It is a world that can no longer be ignored. It has the will to establish itself as the third great power—the United States, Soviet Russia and Islam. A powerful nationalistic leaven moves all of Asia—East Asia and West Asia, from the Pacific to the Mediterranean. Not Russia, Britain or America will stop this movement.

Here To Stay

By TRUMAN TWILL

AN ARGUMENT any of us can get into at the drop of a voice, because for once the common, ordinary citizen knows what he is talking about, is the future of moving pictures. It is in the ordinary citizen's hands. He alone knows what he is going to do about it.

Here is an opinion that the future is bright and that the movies, now celebrating half a century of operation, finally have their feet on the ground. Things won't be the same in the next 50 years as they were in the last 50, but that is not a condition limited to the movies.

When the movies began to pull mortals through the portals at a price a poor man could pay for breathless glimpses of never-never land, the movies used to claim they had killed vaudeville and also the legitimate theater.

When radio picked up momentum, its hopped-up enthusiasts used to think they had killed the movies, just as today the television enthusiasts are sure they have killed everything there is—the legitimate theater, radio and, of course, the movies. In the meantime, they have revived vaudeville, just to show how risky it is to hold post-mortems.

The catch is that these things take a lot of dying. They never receive the mortal blow they are supposed to receive, because in fact the mortal blow never is delivered. That is a fallacy in human reasoning — that the newest thing must kill the latest previous thing in the same category.

What happens is that the newest thing merely is added to all the previous things in the same category. The bicycle came after the horse, which came after the ox. The automobile came after all of them and was followed in turn by the airplane. But we still have horses, bicycles and automobiles. And in places where leisure can be afforded we still have the ox.

In the field of entertainment, diversion, or whatever you call it, people are still going to plays, and prospects for the theater remain bright. People are still reading books. They are still listening to radio. They are having fun with television, the latest addition, but that does not mean it is going to exclude anything.

It does not even mean the demand for anything is going to be curtailed so sharply that the people providing that particular thing will be starved out. Human beings have an incredible capacity for absorbing entertainment just as they have an incredible capacity for eating. The more they have the more they want, which is a grossly neglected axiom among showmen.

Name them off, the things which were going to drive something else out of existence — the phonograph, stereopticon, mah jong, bridge, canasta, tabloid newspapers, Technicolor, the tin can and central heating.

Yet wood-burning fireplaces, home cooking, black-and-white pictures, full-size newspaper, bridge and pinochle are doing all right. These things always cool off while they are being served. Automatic knitting machines looked like the last curtain for hand knitting, yet in half of the houses where this newspaper is being read in the confusion of radio, television, conversation and games, some woman is patiently knitting something because knitting, like the movies, is here to stay.

Making Like a Peace Dove

Governmental Ethics and Humor

By David Lawrence

WASHINGTON

SOMETIMES MEMBERS of Congress inadvertently become humorists — but often they do it with straight faces.

Perhaps the most humorous document yet to be issued is the proposal of five senators that a national commission of inquiry be set up by Congress to study ethics in government. Since the Administration lately has been under fire on this subject, the pro-Administration group may be seeking to divert attention from the mishaps on the ethical front and to focus attention on everybody else's deviations from what are supposed to be ethical practices.

LAWRENCE

It's a favorite device — to draw a red herring so as to obscure what is going on inside the government by blaming persons outside the government.

This time, however, the five senators have outdone themselves in the scope of the inquiry they propose. It is not to be confined to any small circle. It is evidently to include the whole range of human behavior, thus poaching just a bit on what might be termed the province of the moralists, including the church, the home, and the school.

* * *

CONGRESS, according to the latest plan advocated by the Administration senators, would be asked to set up a commission which would report not merely on moral conduct in the federal government but on the moral standards in business and political activity and on "the moral standards generally prevailing in society which condition the conduct of public affairs, or which affect the strength and unity of the nation."

This takes in quite a lot of territory and proposes the use of public funds to find out what anybody can find out by reading the Ten Commandments. It will come as a surprise to most members of Congress and to most officials of the federal government, including the judiciary, that matters have come to such a sad pass that a national commission is needed to find out what's wrong with persons who hold office in their own government.

It will come as a surprise, too, to find four of the same five senators advocating a law requiring all public officials and legislators with salaries above $10,000 a year to make public annually "their income, assets, and all dealings in securities and commodities."

* * *

THIS IS A strange way to impugn the integrity of American public officials who happen to earn more than $10,000 a year. The assumption that a person with less than $10,000 a year will not be tempted to do something unethical by taking a gift or a fee but that the moment he makes $10,000 he becomes suspect will hardly seem logical. Dishonesty knows no income bracket. But primarily it will raise many serious questions. The committee says:

"The revelation of such information will tend to deter individuals from accepting any income, holding any assets, or making any transactions which they believe are questionable."

But will it? Certainly the law wouldn't apply to the official's wife, brother-in-law, son, nephew, aunt, uncle or cousin who could carry on all these transactions if the official wanted to be dishonest.

The person without morality and honesty would not be deterred by any such law. As for the honest and ethical individual, he doesn't need any law to deter him. He knows what is honest and dishonest.

* * *

THE SO-CALLED "ethical report" in a way is a kind of smear and innuendo against all officialdom and will be so regarded by many persons. As for the personnel of the national commission, they are to be 15 in number, but the President isn't to be trusted to appoint them all. The vice president is to appoint five and the speaker of the House is to appoint five. Of the four appointed from Congress, two are to be Democrats and two are to be Republicans. But who is to pass on the ethics of the commission itself and the personal incomes and holdings of its members? And where are such purists to be found? The first difficulty that has to be overcome is the Scriptural injunction: "Let him who is without sin cast the first stone."

Ocean Floor Life

LA JOLLA, Calif.—(AP)—Bacteria found in sediments deposited on the floor of the Pacific several millions of years ago are still capable of reproducing themselves, according to Richard V. Morita, of the University of California's Scripps Institution of Oceanography. Whether they are, as has been claimed, "The oldest living things on earth", is as yet impossible to determine, says Morita. One theory is that the bacteria in the lower layers of sediment have existed in a state of suspended animation for some millions of years. A contradictory theory is that they have been able to carry on normal functions, reproducing and dying, throughout the eons they have been locked in the mud at the bottom of the Pacific. Neither theory can be proved absolutely as yet, Morita states.

For Free Enterprise

FRANKFURT, Germany—(AP)—A survey indicates that almost half of the people of West Germany favor the principle of free enterprise. The survey was conducted by the reactions analysis staff of the U. S. High Commissioner for Germany. One-third of the 1,000 persons questioned expressed opposition to the principle (Gewerbefreiheit). Eight percent had never heard of the term. The U. S. policy in Germany has been to encourage the development of "Gewerbefreiheit," but under a draft law now pending in the German Parliament approval by a council of tradesmen would be required before an individual can enter a trade or a business.

The Once Over

By H. I. Phillips

Business Opportunity

"For Sale: Three transcontinental airplanes, new, with Pratt & Whitney engines, seventeen new Pratt & Whitney airplane engines, all with spare parts for five years. Thirty-three British Spitfires, latest model, fully armed. One hundred fifty thousand Mauser 98 rifles with millions of rounds of ammunition. Four hundred machine guns, 50 caliber (with ammo). Two hundred two-and-half-ton military trucks. All of above available for immediate delivery with license. Box AA-514-S."—N. Y. Journal of Commerce.

* * *

Dear Box AA-514-S:

I just ran across your ad and I don't know when I have been so excited. I am a great reader of the newspaper ads, especially those with a classified flavor, but they so often lack the real big time touch. This one is so full of color, drama, mystery and international flavor that I am all agog. Looking over the list of things you have to sell me I can only exclaim, "Just what I want!" All my life I have been dreaming of a chance like that. (Some people fool around the ads looking for people anxious to dispose of one icebox, four wooden duck decoys, a litter of puppies and maybe a slightly used outboard motor or something. Not me! I am a THREE - TRANSCONTINENTAL - PLANES - OR-NOTHING MAN!)

PHILLIPS

* * *

And no misunderstandings on the spare parts. I want enough for five years in case. I thought I was close to getting a couple of transcontinental planes once but it turned out only one was transcontinental. (The other had only been as far as Chicago. And the fellow had parts only for four years seven months.) What really thrills me in your ad are the 33 British Spitfires. I have shopped everywhere but found them hard to get in most places. The last place I visited was all out and couldn't promise anything. It wouldn't even take an order for 33 for Christmas, especially the fully armed type. You for me, bub!

* * *

How interesting to know that you have 150,000 Mausers, with the gift season coming up, and a million rounds of ammunition, which is so much velvet in a case like that! (As a rule when I run across a man who wants to sell 150,000 Mausers he has no ammunition and wants to leave that item up in the air. That can complicate things.) And 400 machine guns (with ammo)! Brother, do I have trouble when I want machine guns on the spur of the moment? And those 200 trucks! I had to wait six months to get me a flivver last season, so you can understand what your offer of 200 trucks and positively no waiting means to me.

* * *

Well, when can I see you? The price may be beyond me, but I know plenty of people, organizations, states, regions and nations that are after the stuff you advertise. It is in pretty big demand everywhere and I had no idea, being a simple tax payer shelling out hard-earned money to help my government equip itself and most of the world with armaments, that you could make it all so easy. I thought we were having a terrible time trying to arm the free world and keep the stuff from getting to Joe Stalin, and here you come offering immediate delivery—presto—just like that. I was afraid anybody wanting Spitfires fully armed, transcontinental planes and Mausers might have to wait a few hours.

* * *

Well we live and learn, don't we? Answer this letter right away as I am all for immediacy.

One of the inventions of the Huber Manufacturing Co. early in 1900 was a garbanzo thresher. Garbanzo, otherwise known as the Mexican pea, was a product raised extensively in Mexico and Spain and used in the manufacture of stock food. At the World's Fair in Chicago in 1893 the company won every contest offered for the class of engines manufactured by it and at the Louisiana Purchase Exposition at St. Louis in 1904 was again winner of a gold medal, highest award.

Daily Bible Thought

How do ancients know about the cosmic pull of the Pleides? Astronomers discovered it three thousand years after Arab shepherds had divined it! There is hidden wisdom in a very ancient book. The Bible helps us find the creator: "Seek him that maketh the seven stars and Orion."—Amos 5:8.

"Oil Progress" Subject Of Kiwanis Talk

Robert L. Milligan, Pure Oil Executive, Speaks to Club

"Oil Progress" was the topic of a talk by Robert L. Milligan of Chicago, Ill., executive vice president of the Pure Oil Co., at the weekly luncheon meeting of the Kiwanis Club in Hotel Harding yesterday.

Mr. Milligan spoke to the group in observance of Oil Progress Week, Oct. 15 to 20. A former resident of Springfield, O., he attended Ohio Wesleyan University. He has been with Pure Oil since 1929.

He told the Kiwanians that the first oil well in the United States was drilled Aug. 27, 1859, in Pennsylvania. Ohio's first oil well was drilled in 1860 in Washington County.

Rich Field

The Trenton oil field in northwest Ohio was one of the richest of the early fields in this country, he reported. A total of 600,000,000 barrels of oil has been produced in Ohio, with the yearly yield averaging about 3½ million barrels.

He announced that the chances of success in drilling a wildcat oil well are one in eight if a technical survey has been performed, and one in 20 if no survey has been taken. Chances are one in 44 that the investor's capital will be returned at six percent interest. The average cost of wildcat drilling for one well is $90,000, Mr. Milligan stated.

The speaker commended the state of Ohio for using its gas taxes for highway repair and extension.

Demands On Industry

He remarked that the mechanization of warfare has placed a great demand on the oil industry. He declared that the oil wells in the Middle East are the greatest military and economic prize in the world today.

He concluded by urging all citizens to vote, and stated, 'We in the oil industry would like to live and let live in an atmosphere of free enterprise."

Guests at the meeting were Rex W. Redman, John W. Matthews, Hugh E. Webster, Walter Guthery, Luther Mitchell, Carroll Davidson, C. H. Bachelder, Dr. A. F. Linscott, and Clark Metz, all of Marion, and Russ Overlock, Walter Zuber, G. R. Fenner, K. A. Bergin, Ralph Lewis, Tom Janes, and J. E. Haslan, all of Columbus.

The Human Race

By Inez Robb

WILD OAT FARM, FLEMINGTON, N. Y.

I DON'T know whether it's the country air or whether I just naturally lack a decent interest in public affairs.

But I gotta come clean: the suspense ain't killing me over who gets custody of the diamonds in the Rose cause celebre, Eleanor or Billy Boy, himself.

I am passably interested in the fact that the said gems are measured not by the carat but by the crate, and feel that no matter what happens in this latterday War of the Roses, there are enough sparklers to assuage the grief of either the party of the first part or the party of the second part but good.

Inez Robb

Okay, so while I am confessing, leave me make a clean breast of things: I don't care who gets custody of Frankie, Ava or Nancy. That's a deal you can't get the best of, win or lose.

And I am right up to here with indifference over who gets Nickie Hilton, Liz Taylor or someone called Countess Betsy von Furstenberg.

Also, do not forward me any bulletins on whether Shelley Winters and Farley Granger are going to get married, wedly twuly. If I never find out, it's no skin off my nose.

I can work up a faint interest about Greta Garbo and her rheumatiz, but if I am never informed again of the exact status of the Barbara Stanwyck-Robert Taylor menage, I'll get along, and I won't even have to be brave.

* * *

FURTHERMORE, I got a bellyfull (such talk!) of Artie Shaw and any doll he has married or marries in the past, present or future. Mr. Shaw strongly reminds me of a wonderful two-word phrase: Drop dead!

And while I am about it, I am equally fed up with everyone in Washington calling everyone else a liar—under oath and on the witness stand. When I was growing up amid the sage brush of Idaho, liar was a four-letter word that called for a prophylactic dose of soap in the kisser.

Now a liar (and Webster's Unabridged please note) is any one who doesn't agree with whatever party is currently stealing the headlines on the witness stand—just any witness stand will do—in Washington.

* * *

ONCE UPON A TIME, such usage of the language was known as inexcusable. now it is simply dismissed as semantics, which is a $10-term for shennanigans with the vernacular.

I have other gripes, too, but I will pause now to confirm the observation that good news and good people seldom hit the front page. Despite my discontent with the above love-birds and Washington lallygaggers, my heart has been warmed recently by some good deeds in this naugnty world.

Over at Stanton, which is a cross-roads about 10 miles down the pike, I have friends who have been up to their ears in real trouble.

The farm wife had to be rushed to the hospital suddenly, and what the farm neighbors have done in the emergency renews one's faith in brotherly love.

* * *

THE NEIGHBORS down the road gathered up Johnny, my friends' little boy, and took care of him while his mother was in the hospital for weeks and his father tackled the bark-breaking job of running a small farm and working full-time in a nearby war plant.

When two blood transfusions were needed by the wife, 39 men and women in this little community volunteered to go to the hospital and replace the two pints used in the emergency.

When my friend came home from the hospital, generous women—farm wives busy with the harvest season — found time to take care of a woman still too ill to care for herself, her child or her house.

Let's face it: people can be so onery it shames one to belong to the human race; but they can also be so wonderful that it sheds light and grace on all of us.

Robert Sprouse, Jaycee president, presided. The next meeting of the group will be a business meeting to be held Nov. 1 at the Y.M.C.A.

Two accidents yesterday were reported by the state highway patrol.

A car driven by Joseph Babiarz, 37, of Washington, Pa., collided with a Marion County truck in an attempt to pass on Route 30-S, 3½ miles west of Marion, at 9:05 a.m. Both were traveling west, and Babiarz was attempting to turn south on to County Road 95.

Howard Jenner, 65, of near Marion was driving the truck, which was damaged on the left side. The front end of the car was damaged.

Babiarz was arrested on a charge of unsafe operation and was fined $15 and costs when he pleaded guilty in Marion Municipal Court yesterday.

Minor damage to two vehicles resulted on Route 30-N, five miles east of Bucyrus last night at 6:30, when a car driven by Frank Shepherd, 65, of Crestline struck the rear of a car driven by Anton Schnueer, 36, of Mansfield, which was stopped in a line of traffic about to turn into a drive-in theater.

To Discuss School Bus Operations

All phases of school bus operation will be discussed when members of local boards of education, school bus drivers, substitute drivers and local school executives meet Monday at 8 p.m at Green Camp High School. The meeting was called by the Marion County Board of Education.

During the program, Earl Welshimer, supervisor of transportation, State Department of Education, will talk on the use, purchase and care of school buses. The State Highway Patrol has been invited to tell why and how school bus inspections are made.

First aid training for drivers will be discussed by the Ohio Edison Co. At present, Red Cross first air certificates are not required of school bus operators, but they may be next year If the State Department of Education calls for certificates, first aid classes will be set up this year, according to D. T. Mills, superintendent of Marion County Schools.

Seek Foreign Aid Agreement

WASHINGTON, Oct. 19—(AP)—A Senate-House conference committee sought quick agreement today on how much money the United States will spend this year in helping friendly foreign nations bolster their military and economic strength against the threat of communism.

A figure of $7,208,401,000 in new funds was set by the Senate yesterday. The measure was approved by 57-13 after the chamber shouted down a move to restore a five percent cut made by its appropriations committee in the $7,482,527,000 foreign aid bill approved by the House.

Both bills re-appropriate $816,727,000 of unspent funds carried over from the previous fiscal year so that total outlays for fiscal 1952 could exceed $8,000,000,000.

The foreign aid bill is one of three big money measures remaining to be disposed of before Congress quits. The adjournment target is tomorrow.

During the greater part of the American colonial period before the Revolution, there was no fiction-reading public.

Western Harness Assoc. Roundup Set Saturday, Sunday

Horsemen from Ohio and neighboring states are beginning to arrive in Marion for the annual fall roundup of the Ohio Western Horse Association to be held Saturday and Sunday at the Coliseum.

The two-day show will open tomorrow night with the first show scheduled at 7:30. Three shows are scheduled for Sunday. The activities begin at 9 a.m. with a special show for halter class events. A matinee will be held at 1 p.m. with the final show at 7:30.

Clifford Campbell of Morral, secretary of the association, said today 40 to 50 horses already had arrived. The grand champion and reserve champion trophies, to be presented Sunday, are on display today at Markert and Lewis and at the Jim Dugan Store. A total of 57 trophies and 250 ribbons will be presented during the four shows. Horses will be shown from Ohio, Indiana, West Virginia, Michigan and Illinois.

Horses entered in the roundup are high point winners at horse shows throughout the state during the past year. They will be competing for the grand championship title.

The Woman's Board of the Marion City Hospital has been in charge of advance ticket sales and will receive part of the proceeds.

unsafe operation of a motor vehicle.

The bus, driven by Mrs Clifford C. Smith of Green Camp, was owned by her husband and was one of three contracted by Harding High School for the trip. Mr. Smith was driving another bus, slightly ahead of the one which was hit.

3rd Bus Leaves Earlier

The two buses had remained in Findlay after the game to allow Harding band members and cheerleaders to attend the Findlay High School homecoming dance. A third bus had returned earlier with students who did not wish to attend the dance.

The damaged bus was towed to Marion by a wrecker from the Short Ford Garage. Students were transferred to the other bus and to private cars.

Homer Huffman, band director, was traveling on the bus with the group.

Robert Stanley Scott, 24, of 195 South Prospect street was fined $15 and costs when he pleaded guilty in Municipal Court today to dumping garbage on a city street. He was arrested on Polk street at 2:56 p.m. yesterday by city police.

Appeals Court Reviews Five Cases Here

Five cases were reviewed by the Third District Court of Appeals yesterday in Marion County Common Pleas courtroom. They were as follows:

Schuyler L. and Bertha Bellenger vs. John and Hazel Crissinger. This is a dispute over property lines between two lots in the city Both sides appealed the decision of Common Pleas Judge Paul Smith.

Della Mae Keeler vs. Edna V. Cates This is a dispute over property lines in Meeker. The property line had already been set by Common Pleas Court, but both parties appealed.

Commodore Wilson vs Chester Moore. This is a dispute over the priority of liens on an automobile. The appeal was filed by Mr. Moore.

Two cases, the estate of John Buyer, and the case of Thelma McWade vs. William Buyer are interlocked. John Buyer died and left a will which was later ruled invalid by a Common Pleas Court jury. In that will William Buyer was named executor of the estate All the parties involved appealed the decision. The court has been asked to decide whether or not the will stands, and if not, if William Buyer is the legal executor.

A sixth case was not heard. That was Esther Westlake vs the Marion City Board of Educatoin. Miss Westlake was a teacher in the city school system and was discharged by the board She appealed the board's dismissal to Common Pleas Court. The court upheld the board and she appealed to the Court of Appeals. However, her counsel failed to appear in court yeterday and the board has asked the case be dismissed.

All the cases were taken under advisement by the Court of Appeals.

Start children eating fish early

No, they won't grow any taller or have better marks at school, but they will cultivate an appetite for one of the finest foods ever served. Fish has been eaten by man for 100,000 years. The Japanese people have lived on fish for centuries. Be careful of course not to serve fish with many bones. Here we serve fresh and salt water fish that children really love. No finer food served than fish, so start your youngsters on them early. This is a good place for them to start.

Baby Sitter And $20,700 Missing Believed in N. Y.

NAHANT, Mass., Oct. 19—(AP)—Search for a 15-year-old baby sitter, believed to be carrying $20,700 taken from the home of a doctor, centered around New York city today after she and two girl chums were reported seen in Elmira, N Y., yesterday.

The girl is Roberta McCauley. Her companions were identified as Marilyn Curry, 16, and Arlene Jeffries, 17, both of nearby Lynn.

Roberta had been caring for the three-year-old son of Dr. and Mrs. Albert Covner Wednesday night.

When the doctor returned home he said he found his strong box rifled of the money, most of it in $5 and $10 bills, and that about $4,000 worth of jewelry and much of his wife's clothing was also missing.

Three girls answering the descriptions of the trio were seen eating in an Elmira restaurant yesterday.

A radio announcer who reported seeing the girls yesterday said he overheard them say they could reach "the big city" by morning. He said he did not connect the three girls with the trio sought by police until later when he saw an Associated Press story of the disappearance.

U. S. Plans To Test Captured Jet Fighter

WASHINGTON, Oct 19—(AP)—American pilots may be test flying a Russian MIG-15 jet fighter within the next few months.

Reconstruction work on a damaged MIG plucked from enemy territory in Korea last July is under way, although delay has been encountered in reproducing some parts lost in the crash, officials familiar with the project told a reporter today.

The painstaking, bit-by-bit reassembling of the damaged fighter is being done at the analysis division of the Air Force's air material command center at Wright-Patterson Base, Ohio. The plane was recovered from 17 feet of water off Hamchon, North Korea, through the combined efforts of the British, American and South Korean navies and the U. S. Air Force. Surface craft, operating under air cover of Allied planes, hauled the wreckage aboard a landing vessel and hurried out of the enemy waters.

The MIG, shot down in a duel with an American F-86 Sabre, made a crash landing near a mud flat The tail tore off the MIG as it struck, but it was recovered along with the main part of the plane, including the engine.

Stork Club Snub Riles Negro Singer Josephine Baker

NEW YORK, Oct. 19—(AP)—The Stork Club management remained silent today on a complaint by Negro singer Josephine Baker that she was discriminated against at the cafe society rendezvous because of her color.

Miss Baker, internationally known entertainer, told reporters she went to the club Tuesday night as a guest of Roger Rico, French singing star of "South Pacific"

She said they waited about an hour after she ordered first crabmeat, then steak and wine. "One by one they came and said there was no crabmeat, there was no steak, there was no wine," she said. "Then the waiters wouldn't come near us. It was just silence."

When they prepared to leave, she said, a steak "appeared."

Sherman Billingsley, proprietor of the club, withheld any comment Repeated efforts to reach him brought the response from his staff members that he was busy.

Mrs. Rico, who went with her husband, Miss Baker and another guest to the club, confirmed the incident

When her husband tried to call waiters, she said, "they turned their backs and didn't seem to care. x x x it was very, very embarassing."

Miss Baker said she was "invited by the Ricos I didn't want to say, 'Oh, let's not go there because I'm colored'."

"This is a terrible experience," she said. "It is a snub to my color, to my people. It's not just something you can let drop. It is un-American. It is not fair to other Americans. I am consulting with my lawyers and I'm going to do something about it—not for Josephine Baker. I'm doing it for America."

U.N. Beaten In Oil Dispute

NEW YORK, Oct. 19—(AP)—The United Nations Security Council appeared ready to admit today that it had failed completely to help the British-Iranian oil dispute toward a solution.

A bitterly disappointed British delegation saw Yugoslavia withdraw its support last night from an American-backed resolution calling on both parties to resume negotiations, under U N. auspices, on the nationalization of the Anglo-Iranian Oil Co. by Iran

Motor vehicles traveled a total of 465,000,000 miles on U. S. highways last year.

Bid To Give Car Away Leads to Arrest

An Alabama man is on his way back to Cleveland from Marion today after his attempts to give away a car led to his arrest.

Apprehended on a charge of car theft after he had tried to give away a car at Ardrey Motor Sales on Main and Fairground streets, Henry Louis Smith, 37, of Decatur, Ala., told police of these events:

1. He tried to board a train in Cleveland, but was put off.

2. He tried to get arrested by Cleveland police in hopes he would be sent home. This, too, failed.

3 He called the FBI who told him to leave town.

4 He stole a car, but became discouraged after the engine caused trouble

It was after trying first to sell it, then give it way that garagemen became suspicious and called police.

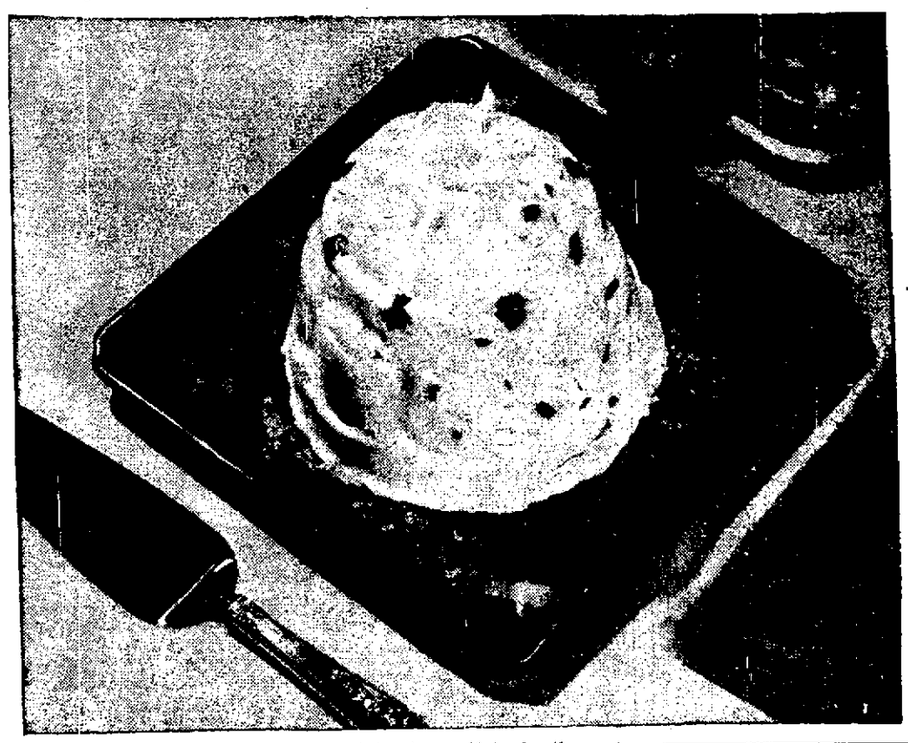
Celery, Cheese Combined in Tasty Salad



SALADS KNOW no season. Autumn, winter spring — any time of the year, is salad time because at any time, for any occasion, a salad can be counted on to add zest and gaiety to any table.

A masterpiece to delight the heart of any salad-making artist is this festive celery-cheese salad. Combining celery, cream cheese, nut meats, fruit, and whipped cream, it's a delightful taste-surprise you'll want to show off to family or guests.

CELERY-CHEESE SALAD

1 pkg. lemon gelatin (any flavor or color can be used)
1 cup finely chopped celery
1 pkg. cream cheese
1 cup of fruit in season, chopped.
½ pint whipped cream

Prepare package of lemon gelatin. When it begins to thicken, add celery, cream cheese, nut meats and fruit. Fold in whipped cream. Set in refrigerator to harden in a fancy shaped mold.

Love Triumphant

By ADELE GARRISON

"Libeler! Slanderer!" I told my husband when we were safely in the corridor, with the door closed between us and the living room. "I never have trouble telephoning!"

He put his hand under my elbow and squeezed it.

"But you do need help in this particular telephone conversation, and you know it," he said. "What did you want me to say—'I know you've got to telephone Dad about Mildred, and I'm sure you'll need my brains and my technique.'"

I stopped short, swung him around facing me and glared at him.

"You—you—mind - reader!" I said chokingly, and he laughed teasingly.

"I didn't have to be a mind-reader to deduce that one," he said. "It is elementary, Watson. You spring the proposition about the costly evening outfits and Mildred Grey, with trouble in her eyes, asks to speak to you alone. When you come back, you both are smiling, but she looks like death, and you look like income taxes—"

"Stop it!" I said pettishly. "I am not amused."

Then, with swift reaction, I clutched his arm remorsefully.

"Please forgive me!" I pleaded. "I didn't mean that. You're being wonderful to me and I'm just being a cat."

"A hellcat," he agreed, "but such a handsome hellcat! I just have to forgive you. Now let's get on down to my room and the private unlisted telephone which will enable you to get hold of Dad, let us hope. Do you want to give me the lowdown, first?"

"Of course," I told him gladly, and then we were inside his room, and he had closed and locked the door.

"Now," he said, putting me into a chair and drawing up one opposite to me. "Give down."

As quickly as I could, I told him of the despairing confidences Mildred Grey had given me, and of her resolve to quit college before the party in New Haven came off.

His face was exceedingly grave when I finished.

"Poor kid!" he said. "That's tough. It's more—it's tragic."

Then his eyes brightened.

"But," he said, "I believe Dad will have the right answer. He usually can pull a fast one out of the hat. Shall I get him for you, and prepare the way?"

"Please do!" I said, and as he reached for the telephone, he stopped and gave me a caution.

"Better brush up your code," he said. "You'll have to talk in that."

"I know it," I said, "I'm already going over it."

But figuring out the words in which I was to tell of Mildred's plight, did not keep me from listening to Dicky when he got my father on the telephone.

"Hello, Dad," he said. "Sorry to disturb you, but this is important. Something has come up about Bill's gal friend—you know—and Madge thinks you ought to know about it. She's given me the low-down, and I agree with her. She's right here. Will you talk to her? What's that? Yes, I agree with you—this telephone is a god-send!"

He turned back to me with a twinkle in his eyes.

"The dear ol boy is preening himself on his prowess in getting that telephone in tonight," he whispered, "but he's entitled to gloat. Okay, darling. Strut your little code. Your father is waiting for it."

"Mine Eyes Have Seen Thy Salvation"

THERE was a man in Jerusalem named Simeon; and the man was just and devout, waiting for the consolation of Israel: and the Holy Ghost was upon him. And it was revealed to him by the Holy Ghost, that he should not see death, before he had seen the Lord's Christ.

And he came by the Spirit into the temple: and when the parents brought in the child Jesus, he took Him up in his arms, and blessed God, and said:

"Lord, now lettest Thou Thy servant depart in peace, according to Thy Word. For mine eyes have seen Thy Salvation, which Thou hast prepared before the face of all people; a light to lighten the Gentiles and the glory of Thy people Israel."

Although wide sweeps were made of the Atlantic, the search concentrated most heavily in the seas off Cape Sable, N. S. It was in that vicinity that searchers spotted dim flashes of light and a yellow dye marker.

Harding High Pupils Tour Feed Mill

Junior and senior auto mechanics and machine shop boys of the Harding High School Vocational Department took a plant tour through the local McMillen Feed Mill Wednesday morning.

Tim Wiant, personnel director of the plant, was in charge of the tour, aided by the following McMillen employes who acted as guides: Norman Winslow, chemist; Paul Wolfe, superintendent of the solvent building; Ralph Rush, foreman; Cliff Baker, foreman; and Bill Sanders, assistant superintendent of the solvent building.

The tour started in the personnel office with a brief talk by Mr. Wiant, who pointed out the manufacturing processes taking place in their plant from the time the soybeans are shipped in by rail or truck as a raw product until they are again shipped out as soybean oil or animal feeds.

The boys were impressed with the amount of intricate machinery, the safety features, the carloads of beans, oil, and feeds handled daily and the amount of electricity and water consumed.

At the conclusion of the tour, the boys were served light refreshments by the company in the plant cafeteria.

The boys were accompanied by their instructors: Robert McMahan, auto mechanics; Don Zuspan, machine shop; Emil Lisak, related technical instructor; and Floyd Gehres, the vocational supervisor of trades and industries.

Shields married Irvin's wife, Dorothy (right), 25, and Irvin married Shields' wife, Alice (left), 26. Each man gave up and received homes of equal value and swapped three children apiece. As a result of the arrangement, each husband merely had to move his clothing from one house to another.

Hope Dims For Safe Return Of Missing Baby

MICHIGAN CITY, Ind., Oct 19—(AP)—The trail of the "woman in white" grew cold today, and hope dimmed for the safe return of a baby who disappeared from his hospital crib six days ago.

Police ran down two leads yesterday in their search for the mysterious woman and reported both were false.

A former employe of the Beatty mental hospital at nearby Westville had been sought. She and her husband, an Indiana factory worker, had been missing from their Michigan City home.

However, a supervisor at Beatty hospital received a letter from the woman postmarked Saturday, the day the baby disappeared, in Siox City, Ia., 550 miles away.

A registered nurse with a baby was detained for a short time in Chicago, but it was established quickly that she was taking the child from a Hammond, Ind., hospital to an infants' home in Indianapolis.

The missing baby, Lawrence James Lyons, who was born Oct 9, disappeared from his crib in the fourth floor nursery at St Anthony hospital. The search for a woman in white was based on a report by a machinist, John Boehnlein, that he saw such a woman carry a baby out of the nursery.

TO CLOSE STATIONS

COLUMBUS, Oct. 19—(UP)—Public Utilities Commission examiner Eugene Nolan recommended today granting application of the New York Central Railroad to abandon agency freight stations at Wharton and Rushsylvania. The examiner's recommendations came at the close of brief hearings yesterday at which there was no opposition. Railroad witnesses testified the abandonments were needed due to lack of carload business at the two points.

Galion Citizens Dedicate New Hospital Wing

Special to The Star

GALION, Oct. 19—Citizens of Galion were commended Wednesday for their spirit in meeting the needs of the community by building a new addition ot Galion City Hospital. This tribute was paid by Paul Q. Peterson, M. D., chief of the Bureau of Local Services, the State Department of Health and a professor in the College of Medicine at Ohio State University, when he gave an address at the dedication of the new wing, Wednesday afternoon.

He told of progress in the state in providing hospitilization since 1927, at which time there were 22 counties that did not have a hospital bed. Now there are only eight counties without hospital facilities.

The new 28-bed addition, constructed of steel and concrete with outside finish of buff faced brick and Indiana limestone trim, cost approximately $250,000, with equipment. It was started in July, 1950, and was opened in August. With the main building, Galion now has 73 hospital beds, in addition to 16 bassinets in the nursery.

Dedicatory services were held at 2 p. m. on the front lawn of the new addition. Program participants, hospital commissioners, city officials, and hospital staff members were seated on a platform.

Open house was held from 2 to 5 p. m. and from 7 to 9 p. m.

The dedication ceremony was planned by a committee composed of Edna M. Smith, M. D. Bonsteel, and Terry Drake.

TWO FIRES REPORTED

Two minor fires yesterday, neither resulting in property damage, were reported by Fire Chief Sifritt. A discarded match set fire to shrubbery at the corner of Church and Orchard streets, on the Harding High School grounds at 6:30 p.m. Firemen from the Central station answered the call. Firemen from the East Mark street station were called at 4:50 p.m. to the home of James McKeever of 361 Patterson street when a bonfire spread into grass.

N.Y. Stock Quotations

NEW YORK, Oct. 19—(UP)—Stocks moved irregularly at the opening today in moderately active dealings.

Price changes throughout the list were small either way with a large number of the leading issues holding at their previous close.

At the start of trading, investors continued to display a considerable amount of caution. They generally held off making any further commitments pending the final outcome of the tax bill.

A few low-priced issues dominated dealings in the first few minutes of trading. United Corp., yesterday's most active stock, opened on a block of 1,000 shares at 4¾, unchanged. RKO Theatres Corp. also held unchanged at 4⅜ with 1,500 shares changing hands.

Steel shares firmed. U. S. Steel opened on a block of 1,000 shares 43⅞, up ¼. Bethlehem Steel slipped ¼ to 54¾. Automotives also steadied. Rails were quiet and generally neglected. Old equities eased. Utilities were dull and virtually unchanged.

McClain Scores 4 TDs Over Findlay

By A. L. McCLAIN
Marion Star Sports Editor

Harding's spirited Presidents turned in their top offensive effort of the season in rolling over out-classed Findlay, 40-20, before some 4,500 Findlay homecoming fans last night. The victory gave the locals a 4-1-1 record and kept them in the running for Buckeye League honors.

Tom McClain, who smashed for four TDs, and Chris Brady with two, led the Prexies to their 40 points. McClain also put on an aerial display that had the fans still talking after the game.

He was aided by some spectacular catches by, speedy Eadie Morse, Harding end. Just before the first half ended McClain faded back to his own 40 and tossed a 60-yard pass that was incomplete on the Trojan goal line.

The Trojans scored before the game was two minutes old. Harding took the kickoff on its own 24 and drove for three successive first downs to the Findlay 41 where a fumble stalled the march.

Score Early

On Findlay's first play from scrimmage, Allan Smith took a lateral and went around his own left end for 59 yards and a score. He also added the extra point.

Undaunted, Harding came back after an exchange of kicks gave them the ball on their own 49. Morse then got behind the Findlay secondary and made a nifty over-the-shoulder catch to carry to the opponent two. McClain bulled over on his first try. Findlay led, 7-6, when the extra point attempt was wide.

Harding regained the lead for good in the second quarter. Another pass play from McClain to Morse was good for 50 yards and carried to the opponent 24. After the Prexy attack stalled, Lloyd "Punk" Arnold kicked out on the Trojan three. After the Harding forward wall threw the Trojans back to their one, they kicked to their own 39.

With McClain, Brady, and Jimmy Russell lugging the ball for big gains the Presidents marched to the two where Brady sliced over and then kicked the extra point to lead, 13-7.

Another TD

Less than a minute later the Prexies had another score. McClain intercepted a pass on the Findlay 25 and dashed over. Brady again added the extra point for a 20-7 lead.

Shortly before the end of the first half Findlay took to the air and carried to the Harding nine. Tats Taylor brought Smith down from behind on a play good for 58 yards. Phillips lateraled to Tate who ran over for the score. Smith's placement try was wide and Harding led, 20-13, at halftime.

After Tats Taylore had intercepted a Trojan pass on the Findlay 42 early in the third quarter, the Prexies drove for another TD. McClain, Doug Bibler, Russell, and Brady carried to the one where McClain smashed over.

The fourth period was wide open with Findlay scoring once and Harding twice.

Bears Want Tackle In Trade for Coach

WASHINGTON, Oct. 19 —(AP)—The Washington Redskins, it seems, are shopping for a new head coach to replace Herman Ball. Heartly (Hunk) Anderson, one time Notre Dame coach, said last night the job's been offered to him.

But there's a hitch. Anderson, although he isn't working at it, is under contract to the Chicago Bears.

And the Bears, according to a Redskin spokesman, are holding on to Anderson unless the Skins are willing to give them Tackle Paul Lipscomb in exchange. And the Skins say no.

After coaching the lines at Michigan and Cincinnati, Anderson joined the Bear coaching staff in 1940 but left coaching this year to take an executive position with the Production Steel Company.

Galion Scores Easy Victory Over Upper

Special to The Star

GALION, Oct. 19—A 20-0 victory by the Galion High School Tigers, last night over Upper Sandusky Rams, keeps them in second place in the Northern Ohio League race.

The game, played at Heise Park athletic field, brought out a large crowd of fans. At the half, the fans were entertained with a novel preview of Christmas season selections by the marching band.

Hal Beach scored in the first quarter of the game when he picked up an Upper Sandusky fumble out of the air and ran nine yards and a touchdown. Paul Schuttera's kick was good for the extra point. In the second quarter Sonny Mansperger caught a 12-yard pass in the end zone from Scherer, to score. Schuttera again kicked the extra point.

A 54-yard run by Hal Beach in the third quarter was good for a touchdown. Galion failed to make the extra point when a pass from center was fumbled.

The Tigers now have four victories and one tie. The victims were Crestline, Shelby, Bucyrus and Upper Sandusky, while the tie was with Norwalk. Upper Sandusky has won two and lost three.

First "sectional" day on the N.C.A.A.-Westinghouse schedule, Saturday also finds the Yale-Cornell game at New Haven, going to viewers in the Eastern and Southeastern parts of the country. A single station, WOI-TV at Ames, Ia., will air the Iowa State-Missouri game at Ames

Describing the Ohio State-Indiana game will be Mel Allen and Bob Stanton, the announcing team at the microphones for last week's thriller between Southern Methodist and Notre Dame.

Something To Sing About for Crosby As Son Stars

SAN JOSE, Calif, Oct 19 —(AP)—Bing Crosby has something new to croon about . . . and Phil Harris may be moanin' low.

One of Bing's footballing sons, Dennis, scored three touchdowns as Bellarmine defeated St. Mary's High of Berkeley, Calif., 31-18, recently. Dennis, a halfback, scored twice with passes; once after a 45 yard sprint. He also set up another by racing 65 yards to the 15.

Phil Crosby, a guard, helped check the St. Mary's offensive.

Why's Harris, the band leader, unhappy? Phil Jr., a halfback for St. Mary's, couldn't match Dennis' touchdown parade.

Prexy Cross-Country Team Chalks Up 19th Straight Win

The Harding High School cross country track team raced to a 16-46 win over Columbus West yesterday at the Marion Country Club. It was the 19th consecutive win for the Prexy harriers.

John Ashworth lowered his course record set this season from 10:39.2 to 10:35 5 as he led the pack. He will be shooting for the record set by Ron Truex of Lima next week against Worthington. That mark is 10:33.5.

Ashworth was followed across the finish line by Ted Price, Frank Green and Dick Coulson as the Prexies swept the top four spots. Dick Bolinger and Dee Price came in sixth and seventh while Joe Thomas rounded out Harding's top seven by finishing ninth.

The season will wind up next week when Worthington visits Harding. Coach Ken Somerlot's runners will travel to Columbus next Saturday for the district meet. The Prexies will be seeking their third straight district crown.

Miller Winner In Straight Falls

Big Bill Miller beat Jules LaRance in two straight falls in last night's main event at the armory. He won the first fall in 20 minutes with a body press and came back to take the second when LaRance was heaved from the ring and failed to come back.

Irish McGee and Roy Shire wrestled to a draw in their 60-minute match Shire copped the first in 25 minutes with knee lifts to the chin. McGee grabbed the second in nine minutes with a toe hold. The two wrestled to a draw after the second fall.

Joe Scarpello and Chris Belkas also wrestled to a draw in the 30-minute opener.

Rate Browns Two TDs Over Steelers

CLEVELAND, Oct. 19—(AP)—The Cleveland Browns are favored by two touchdowns to win Sunday's game from the Pittsburgh Steelers, who lost two contests for want of six points.

The Steelers—who tied the powerful New York Giants in their first outing—lost to Green Bay, 35-33, and then to the San Francisco 49ers, 28-24.

Some 40,000 are expected at Municipal Stadium to see if the Steelers can win their first game in three starts against the National Football League champs.

Eight fumbles contributed to their 30-17 loss in last year's first game against the Browns. The Browns cut loose with a 45-7 win the second time the two clubs met.

So far this year, the Browns have beaten Los Angeles, 38-23, and Washington, 45-0. They lost their opener, 24-10, at San Francisco.

Lost Lead

Pittsburgh had a 10-7 lead over San Francisco's 49ers last Sunday but folded as Frankie Albert turned on the passes.

Coach Paul Brown expects to have his champs at almost full strength for the first time this season, but he is not sure he will go back to the original lineup. Substitutes worked out so well that Brown declared, "Darned if we aren't as happy, or even happier, with the setup as it now stands."

When Hal Herring was injured, Tommy Thompson moved over from middle to right linebacker. Emerson Cole has proven a good sub at full for the injured Marion Motley.

When Back Rex Bumgardner and Tackle Chubby Grigg were benched with hurts Ken Carpenter and John Sandusky filled in well for them.

About the only regular still on the sick list is Motley, who missed last week's tilt against Washington after getting off the list long enough to do a capable job against Los Angeles.

Irish, Richwood Aim For Third Victory

By JOHN SHORT

St. Mary meets Richwood's Tigers tonight at Harding Stadium after two weeks on the road.

Fresh from a 47-18 win over Plymouth last week, the Richwood crew is expected to cause a lot of trouble for the Irish. The Irish crew turned in a disappointing performance last week at Columbus in being tied by an inferior Columbus St. Mary crew.

The teams carry identical records of two losses, two wins and a tie into tonight's tilt. The Tigers were dropped by Elm Valley and Cardington, two of the area's top powers. They downed Mt. Gilead, 57-0 two weeks after St. Mary won from the same crew, 34-0. The Richwood crew held Marysville to a 7-7 tie in the second game of the season.

With a line averaging nearly 180 pounds, the Tigers may be capable of stopping St. Mary's break-away runners, Dave Carr and Mike Anderson, as well as Jim Finnegan's power shots at the line and ends Passing could well decide the outcome. The Tigers probably will be without the services of Bob Cheney at the quarterback slot. He has moved into the tail back post vacated by the injured John Blue. The Tiger passing attack hasn't clicked thus far this season. They have stuck to a ground attack.

Quarterback Jim Kilbury will be in top shape for Ray Robbins' machine and with Pat O'Connor and Dick Gunder to shoot at he gives the Irisn a definite edge in the aerial department.

Biggest threat to Irish hopes is the Tigers' Dick Griffith. A 180-pound halfback, Griffith may be the speediest man on the field. Last year, he out raced Buddy Hoffman, Marysville's all-around athlete in a 220-yard dash.

Kickoff time tonight is 8 p.m.

If Indiana Isn't Too Tough

Expect Janowicz To Get Deserved Rest

By FRITZ HOWELL

COLUMBUS, Oct. 19—(AP)—Ohio State's perpetual motion football guy, All-American Halfback Vic Janowicz, may get some rest tomorrow.

The Bucks, with a 1-1-1 record, are solid favorites to take Indiana's twice-beaten Hoosiers into camp. And if things run true to form, maybe Versatile Vic will get to spend some time on the bench while the lesser lights get a chance.

Against South Methodist Janowicz was in action 52 of the 60 minutes. Against Michigan State, he was on the field for 53 minutes of play, and last week against Wisconsin he missed only 20 seconds.

All of which adds up to a whale of a lot of playing time in these two-platoon days—but Janowicz is the No. 1 man on each platoon.

Just how busy Janowicz has been is shown by the three-game figures. He's rushed 37 times for 148 yards, completed six of 16 passes for 52 yards and two touchdowns, caught three passes for 52 yards, and has punted 21 times for a 41.7 average. The rest of the time he's been blocking and tackling.

Indiana, with some 20 kids from Pennsylvania on the roster, has dropped one-sided tilts to Notre Dame and Michigan, while nosing out Pittsburgh. Despite the fact the two contestants have won but two of six games, and that the show will be telecast by 22 stations in 12 states, a crowd of 75,000 or more will be on hand.

Elsewhere on the Buckeye grid front:

That Ohio U. at Miami struggle Saturday is one of the classiest the Mid-American Conference will offer this year. The defending champion Miami club has gained 1,652 yards in four games to Ohio's 1,268, an offensive margin of about 100 yards per tilt But Ohio U. has held four foes to 442 total yards (66 via rushing) while the Redskins have surrendered 1,253—an edge of almost 200 yards per game for the Bobcats. Cincinnati with 2,156 offensive yards in five games, leads the Mid-American pack, while Ohio U. has the best defensive mark with its 442. Jack Mancos of Kent State leads the loop's scorers with eight touchdowns in four games, with Ohio University's Ed Roberts holding second with a half-dozen six-pointers.

22 Victories

Coach Ed Kluska's Xavier Musketeers, with 22 wins in their last 25 starts, go after another victory tonight against Louisville with Halfback Bob Finnell trying to add to his nine touchdowns.

Dayton's unbeaten Flyers hope Quarterback Paul Spakowski gets a chance to boost his 16-of-18 conversion mark against Chattanooga tomorrow. It looks like a toughie, the Moccasins having been beaten only by Tennessee.

Dale Bruce of Ohio Wesleyan has caught 18 passes for 401 yards and three touchdowns.

Bucyrus Nips Crestline, 16-12

Special to The Star

CRESTLINE, Oct. 19—The Bucyrus Red Men managed to squeeze out a 16-12 win over a surprising Crestline eleven here last night in a Northern Ohio League game.

The home crew jumped into a 12-0 lead in the first frame when Larry Dodd broke through tackle and raced 55 yards to paydirt and Bob Fink galloped 18 yards around end.

Herb Jones got Bucyrus back into the ball game in the second period when he scored on a nine-yard end run. A Butterman to Adams pass was good for the point. The winners added two more points when Dodd was tackled behind the goal line in the same quarter.

Bucyrus won with a fourth quarter touchdown. Jones hit paydirt on a two-yard plunge. Butterman hit Flohr for the point.

G.I. Miceli Scores Kayo

GRAND RAPIDS, Mich., Oct 19—(AP)—Welterweight Joe Miceli of Camp Atterbury, Mass., scored a technical knockout last night over Andy Anderson of Indianapolis, in the second round of their scheduled 10-round main bout at the Grand Rapids Stadium.

Miceli weighed 152 pounds, Anderson, 154.

A crowd of 1,780 saw the bout.

B.G. Leery Of Passing Attack

BOWLING GREEN, O., Oct. 19—Bowling Green's pass defense will get another thorough test when Baldwin Wallace's Frank Roppolo starts throwing Saturday night at Berea.

Roppollo is a left-handed thrower and leads the Jacket offense with 447 yards. He has completed 26 of 68 as the Bereans defeated Akron, 20-16, edged Mt. Union, 26-21, after an initial loss to Muskingum, 23-19. Halfback Chet Grob, leading ground-gainer, has taken 13 of Roppolo's heaves.

The Falcon pass defense, although not the brightest part of their game, has been better-than-average with 11 interceptions Halfback Benny Pate leads the squad in this department with three enemy aerials.

B.G.'s passing attack may have to give way to the running game against B W. Veteran quarterback Rex Simonds was injured in the Ohio U. game and freshmen Bill Lyons and Jerry Barner have been handling the post in scrimmage sessions.

Fred Dutig continues to show leading form in Bob Whittaker's running attack. The all-Ohio candidate has 535 net yards in four games and this week's N.C.A.A. statistics should find him among the nation's leaders. He was fourth in the report two weeks ago.

BOWLING RESULTS

Bob Scott rolled a 242 single and Glen Penry hit a 581 series to top keglers in the Osgood League Wednesday at the Palace Recreation Center. One Man's Opinion

By WALTER KIERNAN

According to the woolly caterpillar it will be a mild winter but he hasn't read Jesse Jones book

* * *

There's enough fuel in those pages to make it a real hot winter with the pro-Roosevelt and anti-Roosevelt people poking away at the old smouldering fires

The hottest debate will be over Jesse's charge that we were headed into World War II all the way.

All I know is that six months before Pearl Harbor I was on a destroyer in the North Atlantic and we were dropping depth bombs in known submarine waters

Washington at the time was saying "We don't have to get into this war" but it was one of the most peculiar ways I ever spent a peace

Maybe the Axis powers knew about those depth bombs and didn't quite believe Washington but we did and, after all, aren't we "the best informed people in the world?"
